

Voice Coaching & Demo Production at Spotcasters

At Spotcasters, we believe in helping talent. With that goal in mind and based on your requests we've designed some voice training programs to help you get where you're going. We not only want to see you succeed as a working voice actor but are flexible and can design something especially for you.

THE SPOTCASTERS PROGRAM \$1,750

15 one-on-one sessions with a variety of local voice professionals, each 45 minutes to one hour in length. We will partner you with 2 or more local coaches, establishing a personalized, rotating schedule. Your coaching sessions will be held at our recording studios with an engineer recording all of your material while we help you through the process of finding and enhancing your strengths and identifying your weaknesses. About mid-way through your program, we will develop two great pieces for your demo reel, so that you have a calling card to begin using as a voiceover actor. At the end of your 15 sessions, we will produce your finished voiceover demo reel. (At any point during the program should you decide not to continue, we will prorate your costs).

SPOTCASTERS SINGLES \$150

Interested in just a few lessons? We'll pair you with a coach and set up a personalized schedule for however many coaching lessons you'd like. The sessions will be held at our recording studios and will be recorded.

SPOTCASTERS DEMO CREATION \$1000

If you are looking for us to help you create a state-of-the-art voiceover demo, we would help you select scripts, sound effects and music for your one to two minute demo. We would record you in our studios, then our Engineers would work their magic in making your finished demo CD. We also recommend some coaching during the recording sessions (additional fee). Plan on a few sessions in the recording studio.

SPOTCASTERS DEMO PRODUCTION \$500

Just want help organizing, editing and mixing your existing, finished materials? Our Casting Director and Engineers will take your existing materials and make them shine, leaving you with one great voiceover CD.

We can't wait to help you showcase your talent. All you need to do is call and let me know how Spotcasters can be a better service to you.
